- Most important issue is not the dispute. It is **why** the MCST gave approvals when they were not in a position to do so, probably since it was formed. Probable answer: It is the **way we operate** that needs to be fixed, quickly and urgently.
- If you want to see the pleasing façades as shown in the pictures on this pamphlet, then **vote NO to Resolution 3.1**
- Resolution 3.1 benefits only 15 SPs on 14<sup>th</sup> floor, **nothing to do with balance of 457 SPs**. The MCST has clearly said they are neutral on this Resolution.
- SPs have already **lost approx \$1,500 each**, why should SPs risk more losses. SPs should be demanding on **ways to put an end to the whole mess**, not prolong the unhappy episode.
- **I sign my name** on websites, and on every pamphlet. I take responsibility for every statement made. Be careful of WhatsApp messages and pamphlets from **people who are too shy to identify themselves**.
